## CHOLERA!

Two Hundred Cases Reported in Three Days.

The City of Moscow Ravaged by It.

Appearance of the Plague in the City of Berlin.

Several New Cases Are Reported at Rotterdam and a Spanish Quarantine Is Raised.

ST. PETERSBURG, Aug. 31.—[Associated Press.]—A supplementary official cholera report, issued today, gives the following statistics of the ravages of the disease in the affected governments during the last week: Orel, new cases, 647; deaths, 213. Cosacka of the Don, new cases, 498; deaths, 202. Koursk, new cases, 286; deaths, 103. Vladimir, new cases, 156; deaths, 52. Lomza, new cases, 52; deaths, 22. Moscow, new cases, 39; deaths, 24. Viatka, new cases, 47; deaths, 22. Voronezh, new cases, 39; deaths, 22. For the government of Podolia, 1178 new cases and 423 deaths; government of Tula, 253 new cases and 78 deaths; government of Yaroslavl, 32 new cases and 23 deaths. In the city of Moscow during the last three days 171 new cases and 74 deaths have been reported. In the city of Kertch, in the Crimea, 69 new cases and 32 deaths occurred during the last five days.

BERLIN, Aug. 31.—Two daughters of a barman in Moabit, a suburb of Berlin, fell ill of Asiatic cholera today, and were taken to the cholera hospital.

ROTTERDAM, Aug. 31.—Two new cases of cholera have been reported in this city. There have been five deaths from cholera at Leerdam, a town in South Holland.

MADRID, Aug. 31.—The Spanish government has decided to quarantine all vessels arriving from Rotterdam and Maassuis, in the Netherlands; from Antwerp, and from Taganrog, on the Sea of Azov, Russia. This step is taken because these ports are infected with cholera. In view of the yellow fever epidemic, all vessels from Pensacola, Fla., or from any port within 105 kilometres of that city, will be subject to the same regulations.

LONDON, Aug. 31.—The Vienna correspondent of the Times says it has been announced officially that cholera is disappearing slowly from most of the infected districts of both Austria and Hungary. The valley of the Theiss is the only region where the cholera still spreads. There the ignorant peasants try to conceal cases of the disease from the doctors and sanitary officials, and refuse to take any precautions against the epidemic. A dispatch from Paris says that England has given notice of her adherence to the decisions of the Dresden Sanitary Conference.

CONNECTICUT'S LOSS.

Damage to Oyster Beds Amounts to Millions.

NEW HAVEN, Conn., Aug. 21.—[Associated Press.]—Two hundred men have been at work all day today cleaning the streets of the city from the debris left after yesterday's storm. The worst damage now proves to have been to the oyster beds, and the loss is said to amount into the millions. Probably \$300,000 has been spent this year in planting shells and improving beds by the Fairhaven cultivators, and this will be almost all lost. Boats which have been out today returned tonight with the most discouraging reports.

Later reports confirm the estimate of heavy damages to the fruit orchards of the island towns. In Mount Carmel from 4,000 to 5,000 bushels of apples were blown off the trees. In Orange scores of trees were blown down, and corn and other crops were destroyed. One thousand five hundred feet of the roof of the Meriden Silver Plate Factory was blown away, and hundreds of trees were felled. The fruit crop throughout the state is about ruined. In Birmingham there was a general tearing up of trees and unroofing of buildings. The damage to buildings in West Haven along the shore, will reach \$25,000.

IMPATIENT ROYALISTS.

Designs Against the Provisional Government.

HONOLULU, Aug. 31.—[Associated Press.]—There has been considerable excitement here during the past few days. Last Thursday the provisional government was informed that an attempt would be made by the royalists to overthrow the government. Admiral Skirret was informed and he sent orders on board the United States ship Boston to have a battalion ready to land on fifteen minutes' notice. The ship was under arms all night, but no demonstration was made by the royalists, however. F. M. Hatch, American, has been elected vice-president to succeed W. C. Wilder, resigned.

KANSAS IS ALL RIGHT.

New York Banks Cannot Squeeze Western Banks Any More.

KANSAS CITY, Aug. 31.—[Associated Press.]—The Star's Topeka, Kan., special says: In answer to numerous letters and telegrams received this morning from various cities, asking for further information, concerning State

Bank Commissioner Breidenthal's circular, relative to balances Kansas banks carry in New York, and especially desiring to know the condition of the Kansas banks relative to New York banks. Mr. Breidenthal said the banks of Kansas are very little indebted to the New York banks, because since the stringency of money set in the New banks, have called on all their resources for cash, and not being in touch with Kansas, they have called in nearly all the Kansas banks owed them on rediscounted paper. The balances the Kansas banks carry in New York, Mr. Breidenthal says, are small, but they exceed the indebtedness of the 2 per cent permitted by his circular. The Kansas banks, he added, need not fear any retaliatory measures the New York banks may adopt on account of this circular, as when the balance is struck the New York banks will be on the debit side of it.

TWENTY MILES AN HOUR.

A New Steam Yacht Beats All American Records.

NEW YORK, Aug. 31.—[Associated Press.]—The steam yacht "Embla," built for Captain Hagan, of the New York Yacht Club, by Seabury & Co., has broken the record for cruising steam yachts in American waters. On the run down Long Island Sound, between Brenton's Reef Light Ship and Execution Rock, the "Embla" sustained a speed of twenty and one-fourth statute miles for four consecutive hours. At the time of this record-breaking performance the wind was fresh from the northeast and a long swell was rolling across the sound. This is the fastest time ever made by a cruising steam yacht in this country, and has only been exceeded by such racing machines as the "Vamoose" and "Norwood."

THE GEORGIA FIGHT.

Blount Enters the Field for the Governorship.

The Contest Promises to Be Both Lurid and Sensational—Cleveland Takes a Hand.

ATLANTA, Ga., August 31.—[Associated Press.]—J. H. Blount, United States minister to the Hawaiian Islands, will run for the governorship of this state. He is to be the administration candidate, the statement having been confidentially made that Mr. Cleveland could not carry Georgia in the light of recent events.

The gauge of battle has been accepted, and in voting for Mr. Blount's nomination the voter will express his confidence in Mr. Cleveland. The contest promises to be one both lurid and sensational.

Died Trying to Save His Friend.

WILKESBARRE, Pa., Aug. 31.—William N. Andrews and Andrew Shrisky, two Lehigh Valley section hands, were instantly killed at Penn Haven Junction this morning by a passenger train, owing to a wreck which had been changed from the east to the west track, down which the men were walking. They heard the train behind them, but expected it to pass as usual on the other track. The engineer blew the whistle and Andrews jumped aside, but tried to save his companion and both were struck. Each has a wife and several children.

Fell Through a Bridge.

SPRINGFIELD, Mass., Aug. 31.—An accident has occurred on the Boston and Albany road. A bridge near Chester collapsed under the train, which fell ten feet into the river. Latest reports are ten killed; twelve injured. Engineer Horton and Fireman Mitchell, are among the killed. A wrecking train with physicians have gone to the scene. Five cars went through the bridge.

Ready to Resume.

APIA, Samoa, Aug. 31.—Although the war in Samoa is over it only needs a popular leader to start it up again. Mataafa and his daughter, and ten chiefs, have been exiled to the island of Jakafo, one of the union group. Twenty-four other rebels have been sentenced to three years at hard labor, and eighty others to pay a fine of \$600 each.

Sacred Heart Academy.

The scholastic year at the Academy of the Sacred Heart under the direction of the Sisters of Mercy, will commence on Monday, September 4. Any information required regarding same can be had on application to the Sister Superior.

Factories Will Resume.

ST. JOSEPH, Mo., Aug. 31.—All the large factories in the city which closed six weeks ago will resume work with full forces Monday. All the factories that have been running with half a force will put on a full force.

NEWSPAPER WAIFS.

AUNT—"Well, Bobby, what do you want to be when you grow up?" BOBBY (remembering private sentence in the woodshed)—"An orphan."—Texas Siftings.

TEACHER—"Karl, can you tell me the symbolism of colors—green, blue and red, for instance?" KARL—"Hope, modesty, and—socialism."—Fliegende Blätter.

MUSIC.

He—Music hath charms to soothe a savage.

She—You wouldn't think so if you had heard papa's remarks the other night after you had been singing.—Detroit Free Press.

## WALCOTT TALKS.

The Inconsistency of Hill Pointed Out.

The Folly of Passing the Repeal Bill.

Expecting Any Advantage to Silver to Follow.

The Fooling With the Tariff will Almost Certainly Begin During This Session.

WASHINGTON, Aug. 31.—[Associated Press.]—The senate took up the house bill repealing the Sherman act, and Walcott of Colorado, spoke against it. He declared Hill's speech might have been as well made against silver, as he knew free coinage was impossible by a separate act under this administration. Cleveland would veto any independent silver coinage measure. He hinted that if this bill passed, the free silver men might vote against protection in any form. If repeal should be passed, the banks would probably work for and secure the issue of a hundred millions of gold bonds.

At the close of Walcott's speech, Hill gave notice that he would speak on repeal next Wednesday, then Caffrey, of Louisiana, spoke in favor of unconditional repeal.

Peffer tried to call up his resolution touching the condition of the New York banks, but the senate by a vote of 35 to 21, referred it to the finance committee.

Tariff Legislation.

WASHINGTON, Aug. 31.—It has been decided to commence work on the tariff this session. Chairman Wilson, of the ways and means committee, hopes to have a bill for consideration by November. Daily receipts of the government are falling \$300,000 short of the compulsory expenditures for pensions and the ordinary expenses of government. Already a deficit of \$10,000,000 is in sight. To meet the shortage congress must pass a law providing for a new issue of government bonds, and provide for income tax or increased rate in existing forms of taxation.

The house this morning resumed consideration of the new rules.

WASHINGTON, Aug. 31.—The house granted leave to the banking and currency and coinage committee to report at any time. The house is still considering the rules with but little progress.

LOCAL BRIEFS.

Among the Tucson citizens who have just returned from the world's fair are Charles Shebell and Mrs. S. M. Franklin.

Superintendent W. B. Gillingham of the Phoenix mine has offered his resignation, which will probably be accepted soon.

Governor Hughes yesterday appointed Dr. George Goodfellow of Tucson delegate to the Pan-American congress which assembles at Washington in October.

George W. Perkins of Tombstone, a mining man of experience and a skillful assayer, is at the Fifth Avenue hotel and will visit some of the neighboring mineral properties.

The Tucson baseball team is taking daily practice for the contest with El Paso. The series between the two clubs has been agreed upon, but the date has not been set.

The following transfers of real estate were recorded yesterday: Otto Sivert to Henry and Addie Colman, lot 1 in block 2, Collins' addition, \$150; Ella Pomeroy to B. F. Johnson, lot 4, block 23, Mesa, \$15.

A claim of \$3,000 against the Bee Hive was received by telegraph yesterday by a local legal firm from a Cincinnati house with instructions to attach. The Cincinnati people were referred to a collecting agency here, but no action was taken last night.

Constance Briggs returned from Tucson yesterday morning with Alice Deschamps. She pleaded poverty as an excuse for leaving town so unostentatiously and declared that she was unable to pay the \$100 fine. She is now occupying the commodious and elegant quarters at the court house provided for jurors.

J. H. Parker of the Co-operative Mining and Milling company of Castle Creek was in Phoenix yesterday. He said both the mine and the stamp mill were being operated by a crew of fourteen men. At Buzzard's Roost, a short distance away, the machinery is on the grounds for the erection of a five-stamp mill. Other gold properties of the district are looking well.

Yesterday afternoon a team attached to a wagon loaded with beer started from the alley in the rear of Melzer's wholesale liquor store, ran furiously out to Center street and struck a carriage belonging to the asylum, broadside. What usually happens when one comes in contact with too much beer occurred then. The carriage was overturned and a wheel was crushed.

In a recent report in THE REPUBLICAN of the marriage of Mr. James G. Hammett, the bride's name was published as Miss Nellie Kimball of Mesa. She was instead, Miss Nellie Kendall of Phoenix, who is well known as an accomplished young lady and one of the most efficient teachers ever connected

with the city schools. The marriage was performed by Rev. Mr. Elliott.

J. B. Woodward yesterday received a letter from his associate counsel in Minneapolis that the supreme court of Minnesota has decided the suits against the American Building and Loan association in favor of the plaintiffs. This will be good news to about thirty "victims" in this valley whose claims Mr. Woodward represents as attorney, and will result in retaining to the city about \$5,000 of hard cash for distribution among the policy holders next month.

Mrs. Sanford of Denver, who recently came to Tempe to spend the winter with her parents, Captain and Mrs. Atkinson, says little is known outside of the real situation in Denver. When she left, little more than a week ago, there was really only one bank in the city in active operation, though others were preparing to resume. Three of the principal hotels, the St. James, the Metropole and the Windsor, beside many second-rate ones, had closed their doors for lack of patronage.

PERSONAL.

L. Good, of Anaheim, Cal., is stopping at the Arcade.

Captain McCassey came down from Mesa yesterday.

Wm. Lodd, a resident of Tempe, was in town yesterday.

W. S. Alley went out to the Phoenix mine yesterday morning.

Prof. Theo. B. Comstock, of the University, came in from Tucson yesterday.

Geo. Webb will leave next Sunday for Nogales to enter upon his duties as line rider.

Dr. Hardy went to Maricopa last night to meet his wife, who is returning from a visit among relatives in Iowa.

John C. Hughes, son of Governor Hughes, arrived in town yesterday from Tucson. He will remain over today.

W. C. Davis, the well-known mining man from Golden, was in town yesterday. He has recently returned from an eastern trip.

Hon. C. R. Hakes of Lehi, was in town yesterday on business connected with his mining claims in the Superstition district.

Geo. Hamblin came in from the Relief mine night before last. He reports that the mine grows richer as the development proceeds.

Miss Nellie Walsh, of the Sixth Avenue, returned from Tombstone yesterday morning. She was accompanied by her sister Miss Maude.

Frank Phillips celebrated his thirty-fourth birthday yesterday, and received the congratulations of his scores of friends in the city and country.

Mr. and Mrs. W. I. Horner returned yesterday from a summer visit to the coast. Most of the time was spent at Los Angeles and Santa Monica for the health of Mrs. Horner.

The Commercial hotel guests yesterday were Theo. B. Comstock, Tucson; J. McAnderson, San Francisco; John C. Hughes, Tucson; Mr. and Mrs. W. I. Horner, Miss Woolsey, and H. E. Stinson, Los Angeles; Sallie Nott, Washington, D. C.; Marian Culver, Emporia Kan.; W. C. Davis, Golden.

Judge J. W. Kincaid returned yesterday from a two month's vacation. Though worn by his homeward journey his appearance since leaving is much improved. The greater part of his time was spent at San Diego. During the last two weeks he has been at Los Angeles. He will take a rest of a day or two before resuming the duties of his office.

BITTEN BY A CAT.

Whose Actions Create Consequent Alarm.

The little two-year-old daughter of Mr. Thomas Little, living in Churchill's Addition, was bitten twice yesterday morning by a cat whose symptoms led to a fear that she was mad. The wound was cauterized by Dr. Helm, who believed that whatever may be the character of the bite, no fear need be apprehended since treatment was administered so soon after it was received. Later in the day the cat bit a gentleman, who is stopping at Mr. Little's. Several attempts were made during the day to kill it, but none very successful and there is some alarm in the neighborhood.

Matters in the East.

Dr. H. A. Hughes, speaking yesterday of his eastern trip, said that he was in the east during almost the entire period of the panic so far as it has gone. He noticed before leaving that the situation was being gradually relieved, and it was predicted that not only the worst but all was nearly over. Concerning the land receivership, the doctor is non-committal. There is, though, little doubt that the matter is quite settled in his favor.

May Observe the Sabbath.

CHICAGO, Aug. 31.—The court has dissolved the injunction requiring the world's fair to be kept open Sundays, and the fair may now be closed on Sunday if the directors see fit.

Cholera in England.

LONDON, Aug. 31.—The epidemic in Grimsby has been declared officially as Asiatic cholera, believed to have been brought by immigrants from Antwerp and Rotterdam.

Attention, Property Owners!

All property owners in the City of Phoenix are hereby notified to trim the trees on the sidewalks in front of their property under penalty of the law.

J. W. BLANKENSHIP, City Marshal.

Last season's chamber suits marked down during August. New stock coming.

HAMBROOK & SON.
